Join an award-winning, on-line, professional master’s program teaching Data Science and Analytics to working professionals from all around the US.

Assistant or Associate Teaching Professor
Faculty Position
DATA SCIENCE AND ANALYTICS
University of Missouri-Columbia

The University of Missouri (MU) Informatics Institute is accepting applications for position of Assistant or Associate Teaching Professor of the Data Science and Analytics (DSA) program. We are looking for data scientists with rich industry experience to work in a vibrant environment to educate working professionals to enter the data science workforce. In today’s information-centric world, data are becoming increasingly important for the success of businesses in every industry. The demand for data scientist in the American workforce is expected to continue to grow at a healthy pace for the next ten years and so is the MU Data Science and Analytics program.

The MU Data Science and Analytics program was awarded the 2018 Outstanding Credit Program award by the UPCEA Central Region for continuing education programs.

The program works closely with industry partners to ensure the curriculum follows the needs of the business community by developing data life-cycle oriented data science practitioners with advanced data science training in a variety of Big Data and cutting-edge technologies.

The University of Missouri is a Tier I research institution and one of only 60 public and private U.S. universities invited to membership in the prestigious Association of American Universities. Data science at MU is an interdisciplinary field with collaborators from a variety of academic units, such as computer science, journalism, information science, business, and health care. Here you can advance your career by connecting with diverse interdisciplinary faculty who are conducting cutting-edge research for data-driven discoveries in fields such as engineering, agriculture, business, and health care.

Minimum Qualification: Doctoral degree in related area, 3 years of data science and industry experience.

Apply Now: submit a CV, a teaching statement and a list of three to five professional references electronically on the [MU job listing site](#).

The University of Missouri is committed to an environment of diversity and inclusion for both faculty and students. We specifically invite and encourage applications from qualified women and members of groups underrepresented in science.
